

PRESS RELEASE

E-Transit Demonstrates Innovative Toll Collection System Products at the 2010 IBTTA Annual Meeting in San Diego, CA

Bridgeport, PA -- September 20, 2010

E-Transit, Inc. (www.etransit.us) presented a suite of innovative toll collection system products at the 2010 Annual Meeting of the International Bridge Tunnel and Turnpike Association (IBTTA) in San Diego, CA. The IBTTA (www.ibtta.org) is the international trade organization that represents toll collection agencies worldwide.

E-Transit demonstrated its latest versions of manual and ETC technologies. These include:

FLEXCSC	A new "shrink-wrapped" ETC Customer Service Center system
VS-77	Video based vehicle separator system that replaces light curtains
ITV-3000	Digital video audit system (DVAS) that is the premier tool for auditing toll transactions from all types of toll lanes.
TollControl	E-Transit's powerful lane/plaza/host systems for large and small toll collection applications

Also shown were EPC Gen 2 ETC tags and readers, barcode based in-lane payment devices, customs and port security technologies, touch screen toll terminals, fiber-optic axle counters, and more.

About E-Transit:

E-Transit is a leader in information and control systems for the transportation, ports, and security industries. Our team includes experienced systems professionals who provide consulting, hardware/software design, and system integration services for intelligent transportation, security, toll and revenue collection, point of sale, industrial control, and auditing applications. We use off-the-shelf components, standardized communication protocols, open computing systems, and conservative design practices.

The Company has ongoing projects and installations in the USA, and abroad. The company E- was founded in 2000 and operates from offices in Bridgeport, Pennsylvania (approximately 20 miles from Philadelphia).
